How to set the parental control function of Ceres CR300

Device Model No.:CR300

1

Question Category:Function Setting

Controlling the online time of children at home has become a problem for many parents. The parental

control function of CR300 can flexibly set Internet rules for different devices, which perfectly solves parents' troubles.

This article will introduce the detailed configuration steps of the parental control function.

Log in to the router management page

Open the browser, enter "192.168.10.1" or "www.ceres.com" in the address bar, click Enter or Return Key to enter the router login page, the factory login password is admin (refer to the sticker on the bottom of the router), click Login button.

2 Set up parental controls

1. Open the "Parental Controls" menu and click the "Add" button, as shown below:

	Parenta	al controls		
巴 Router status		MAC	Limit internet duration	Operation
✓ Wizard setting				
Internet setup				
ᅙ Wireless				
R Guest network				
A Parental controls	1			

2. Set up according to actual demands. You can set the period of time when Internet access is allowed and the date when Internet access is restricted. After setting, click "Confirm", and it will take effect after a while.

Add rules	1. Fill in t	he mac addres	s of the dev	vice to be res	stricted,The	address can be \times
	viewed in	the "Network	speed cont	trol" interface	e of "Advar	nced "
	MAC	XX:XX:XX:XX:XX	::XX			
				2.0	Configure li	imit time period
	Limited time	00 • : 00	▼ : 00	▼ : 00	•	
	Repeat	🗌 Everyday	SUN	MON	🗌 TUE	3.Check date
		WED	THU	🗍 FRI	SAT	
		Cance	el	Confirm	4.Click	< confirm

3. After the configuration is successful, you can see that the interface generates a rule, which means that the parental control function has taken effect.

Parental controls				
Add				
	MAC	Limit internet duration	Operation	Del
	c0:9a:d0:d6:04:4e	Everyday, 6:0-7:0		•

4. If you want to edit this rule again, click the operation icon on the right, the operation interface will pop up, and you can modify it again.

Parental controls						
	Add					
	MAC	Limit internet duration	Operation	Del		
	c0:9a:d0:d6:04:4e	Everyday, 6:0-7:0	Ø	•		

5. To delete this rule, click "-" on the right to delete the rule.
